

# GreenGuard<sup>®</sup>

## Seam Tape

For use to seal seams on building wrap and insulation.

- Seals seams on building wrap and insulation
- 1 7/8" Standard Seam Tape for general applications
- 2 7/8" Custom Seam Tape for uneven surfaces and enhanced adhesion

# GreenGuard<sup>®</sup> Seam Tape

## Description

Kingspan GreenGuard<sup>®</sup> Seam Tape is self-adhering tape comprising a polyolefin film with an acrylic adhesive.

Kingspan GreenGuard<sup>®</sup> Seam Tape adds an extra layer of air and moisture protection to structures. 1 7/8" wide Kingspan GreenGuard<sup>®</sup> Seam Tape is recommended for flat surfaces. 2 7/8" wide Kingspan GreenGuard<sup>®</sup> Custom Seam Tape is recommended for uneven surfaces, such as Kingspan GreenGuard<sup>®</sup> RainDrop<sup>®</sup> 3D Building Wrap and Kingspan GreenGuard<sup>®</sup> RainArmor<sup>™</sup>. Both tapes stick tight in all seasons, even when the temperature drops below freezing. Long-lasting UV stabilizers help them resist the deteriorating effects of the sun. The tapes can also be used to repair rips in damaged insulation and building wrap, eliminating waste and saving money.

## Installation

Placement by hand, then it is necessary to apply strong pressure with a j-roller to ensure adhesion.

## Compliance

Intertek CCRR-1018  
(for use with Kingspan GreenGuard<sup>®</sup> Building Wrap);  
Intertek CCRR-1022 (for use with Kingspan GreenGuard<sup>®</sup> Siding Underlayment & Sheathing);  
Intertek CCRR 1021 (for use with Kingspan GreenGuard<sup>®</sup> XPS Insulation Board).

## Handling & Storage

Store boxes containing Kingspan GreenGuard<sup>®</sup> Seam Tape in a clean, dry area without prolonged, direct exposure to sunlight. Seam Tape has a shelf life of 12 months.
